One Love Revolution

Written by Joey Avalos, Rob Beckley, Lester Estelle Jr, Noah Henson, Michael "Kalel" Wittig

Open your mind and eyes and realize-- time to switch it up now pay attention, recognize
We need each other, like a slipper needs a Cinderella,
To fight this fight against the biggest, baddest, mad gorilla
Warfare, no time to spare, when there's so many people in this world, in deep despair
You see, we could be, what this world really needs, and give love freely, become family.

One love, One name, let's come together

Its a one-love revolution
Full proof solution
To end all the senseless tragedies
A one-love revolution
Fight the pollution
Take a stand and let love win.

This is our time to rise and be the ones
take a chance and risk it all for the sake of love
We got to fight it, separate from all the hate, unite us
Together we can make this world better, less divided
Warfare no time to spare when there so many people in this world, in deep despair
You see, we could be what this world really needs, give love freely, become family.

One love, One heart, no shame
One love, One heart, One name

Its a one-love revolution
Full proof solution
To end all the senseless tragedies
A one-love revolution
Fight the pollution
Take a stand and let love win.

Stand up, stand out, stand strong, lets stand forever
One love, one name, one song, lets fight together
(One Love)
Stand up, stand out, stand strong, lets stand forever
One love, one name, one song, lets fight together

Its a one-love revolution
Full proof solution
To end all the senseless tragedies
A one-love revolution (one love)
Fight the pollution
Take a stand and let love win.

Disconnect

Written by Rob Beckley, Lester Estelle Jr, Noah Henson, Stacy Hogan, Michael "Kalel" Wittig

there's so much static in the atmosphere
so symptomatic of a world unclear
system failure – time to improvise
our lives our changing right before our eyes

this line is not secure
halt all communication
the message has been lost
drowning in this information

**Somewhere in the silence I could hear what you said
close your eyes, take a breath, clear your mind, disconnect
rise above the noise, hear the truth instead
close your eyes, take a breath, disconnect disconnect**

they'll keep igniting till the sky is bright
they'll keep us fighting every day and night
system crash – no time to compromise
a war within, when will we realize

this line is not secure
halt all communication
the message has been lost
drowning in this information

**Somewhere in the silence I could hear what you said
close your eyes, take a breath, clear your mind, disconnect
rise above the noise, hear the truth instead
close your eyes, take a breath, disconnect disconnect**

disconnect the pain
disconnect the lies they put inside my brain
disconnect the dots, disconnect the pain
disconnect the lies they put inside my brain

Nails

Written by Rob Beckley, Lester Estelle Jr, Noah Henson, Michael “Kalel” Wittig

I can feel my heart beating
With a pulse that is not my own
I can hear myself breathing
a breath that brings life to bones

In the valley of the walking dead
There is life there is more unsaid
If I never surrender I'll never remember
The tie between life and death
Cause I die to myself every chance that I get
There'll be no more regret

**Everyday I put another nail in my
Another nail into my coffin
Everyday I put another nail in it
I don't care cause I'm the one swinging
Oh Oh Oh
I don't care cause I'm the one swinging
Oh Oh Oh
Its not about me Its not about me No!**

I can see myself standing
My reflection is not who I was
I can feel my soul stranded
In a place that I want to be lost

In the valley of the walking dead
There is life there is more unsaid
If I never surrender I'll never remember
The tie between life and death
Cause I die to myself every chance that I get
There'll be no more regret

**Everyday I put another nail in my
Another nail into my coffin
Everyday I put another nail in it
I don't care cause I'm the one swinging**

Oh Oh Oh

I don't care cause I'm the one swinging

Oh Oh Oh

Its not about me Its not about me No!

From your breath I see the light

It gives me strength to face the fight

When you speak the time is right

You can speak these bones back to life

Everyday I put another nail in my

Another nail into my coffin

Everyday I put another nail in it

I don't care cause I'm the one swinging

Oh Oh Oh

I don't care cause I'm the one swinging

Oh Oh Oh

Its not about me Its not about me No!

I'm the one swinging

We Ride

Written by Rob Beckley, Lester Estelle Jr, Noah Henson, Michael "Kalel" Wittig

When the sky begins to break

and the thunder calms the pain

We'll see fire in his eyes

when confusion starts to reign

And all our tears will be dried from our eyes

In the end we will make our stand

we will be there hand-in-hand together

together we will ride

and when it all goes down

and the mayhem's all around

we will fight together together

we will ride

As the battle rages on
they'll be hell for some to pay
(Hell to pay)
And every king from in our day
will be made to say the name
and all their fears will fade

**In the end we will make our stand
we will be there hand-in-hand together
together we will ride
and when it all goes down
and the mayhem's all around
we will fight together
together we will ride**

Revelation 6:8
But we
We ride with the one on the white horse

**In the end we will make our stand
we will be there hand-in-hand together
together we will ride
and when it all goes down
and the mayhem's all around
we will fight together
together we will ride**

Shooting Star

Written by Rob Beckley, Lester Estelle, Noah Henson, and Michael "Kalel" Wittig

Time after time when we were young
We thought we would live til forever
When days were long we lived without fear
We thought it was ours to conquer

**Cause You are a shooting star
And we will wait for You to light the sky
And when it starts to rain
We'll wait it out until the clouds break
And see the light**

No wasting time worried about
How we will get through tomorrow
So instead we look to the sky
And lift our hands and we realize, realize

**Cause You are a shooting star
And we will wait for You to light the sky
And when it starts to rain
We'll wait it out until the clouds break
And see the light**

The rain may feel like pain
But hope comes with the sun
The storms will come our way
But You have overcome

**Cause You are a shooting star
And we will wait for You to light the sky
And when it starts to rain
We'll wait it out until the clouds break
And see the light**

Unafraid

**Written by Rob Beckley, Lester Estelle, Noah Henson, Stacy Hogan, Jaran Sorenson,
Michael "Kalel" Wittig**

this broken rear-view says it all
the past is more than we recall
every road we took has led us here
to a place where our fears disappear

every mistake that I ever made
a lesson learned - but never too late
don't let your history keep you
from being who you'll be

**be unafraid (be unafraid)
be unafraid (be unafraid)**

just take a look how far we've come
and we've been luckier than some
and if you're broken, call on me
I'll help you make new history.

time will never change what has been done
it's only shaped what we've become
I know it's hard to see sometimes
but all you need to be

be unafraid (be unafraid)
be unafraid (be unafraid)
all these scars remind us that we'll always find our way
be unafraid

now we're here, we're no longer the same
we have nothing to prove, or to explain
we are who we are, and we're not ashamed
of who we once were, cuz we overcame.

be unafraid
be unafraid (be unafraid)
all these scars remind us that we'll always find our way
be unafraid

Paratrooper

Written by Rob Beckley, Lester Estelle Jr, Noah Henson, Michael "Kalel" Wittig

Equipment check We hit the ground runnin
Clocks synced We know The times coming
Behind enemy lines Where the fight lies
Be at the ready Keep your eyes set on the prize
And realize that the battle that You face now
Ain't about an enemy you gotta Chase down
Face down rendezvous You better know now
that the fights coming to you
So watchya do now gotta find your platoon
Cause we'll be waiting at the Rally point ready to move
Moving with a purpose like there's something to prove
No excuse we press on we got work to do

1,2,3,4 Everybody put your hands in the sky
1,2,3,4 Stepping into battle with our heads held high

**We're dropping from the sky like soldiers in the night
With cover of the light, its do or die
No soldier left behind together side by side
And we will face this fight its do or die**

Locked and cocked our weapons at the ready now
We don't stop we gotta keep it steady now
Pressing on with a purpose like there's nothing to lose
Don't stop moving we got something to prove
This time we know what we're fighting for
Like Jimmy Braddock coming back for more
We know that we're stronger than we were before
Got an army at our six here to settle the score

1,2,3,4 Everybody put your hands in the sky
1,2,3,4 Stepping into battle with our heads held high

**We're dropping from the sky like soldiers in the night
With cover of the light, its do or die
No soldier left behind together side by side
And we will face this fight its do or die**

And we will fight
Dropping from the sky

**We're dropping from the sky like soldiers in the night
With cover of the light
We're dropping from the sky like soldiers in the night
With cover of the light, its do or die
No soldier left behind together side by side
And we will face this fight its do or die**

Embrace the Chaos

Written by Rob Beckley, Lester Estelle Jr, Noah Henson, Michael "Kalel" Wittig

everything around us happens at the speed of life
keep moving forward there's no time to back down

don't over analyze and maybe we will realize
tomorrow's coming but don't forget right now

**dig in and clench our fist
and get ready for a fight
when trouble starts to rise
just stare it in the eye
we've got to embrace the chaos
we've got to let it go
this pain thats in control
grab ahold and embrace the chaos**

Whether you like it or not its coming
the storm is creeping no room.....for..... fear..... now

our hesitation leads to other fools inhalation
we've got to rest so we can savethem.....some.....how

**dig in and clench our fist
and get ready for a fight
when trouble starts to rise
just stare it in the eye
we've got to embrace the chaos
we've got to let it go
this pain thats in control
grab ahold and embrace the chaos**

Man you don't get it. You can't fight the chaos. You gotta fight in the chaos!

**get ready for a fight
when trouble starts to rise
just stare it in the eye
we've got to embrace the chaos
we've got to let it go
this pain thats in control
grab ahold and embrace the chaos**

Lion Leads the Way

Written by Rob Beckley, Lester Estelle Jr, Noah Henson, Aaron Rice, Michael “Kalel” Wittig

It feels like a fire ragin inside of me
And I'm feeling like an animal
stuck in a cage ready to break free
so pick up and follow me

I fear no enemy
Cause the breath
You breathed in me

**You've given me life
You've given me strength
For all the enemies I face
I'm not backing down
I'm standing my ground
The lion leads the way**

There's no room for panic inside of me
I'm steady like a rock
Rock steady got my back covered from head to feet

pick up and follow me

I fear no enemy
Cause the breath
You breathed in me

**You've given me life
You've given me strength
For all the enemies I face
I'm not backing down
I'm standing my ground
The lion leads the way**

**You've given me life
You've given me strength
For all the enemies I face**

**I'm not backing down
I'm standing my ground
The lion leads the way**

Never Felt More Alive

Written by Rob Beckley, Lester Estelle, Noah Henson, Stacy Hogan, Michael "Kalel" Wittig

remember what they told you
all the lies that they sold you
change who you are, don't think for yourself
and if you're different, you're lucky that they can't tell

guess it took a bit of living
to be glad for what you're given
and who wants to be, like everyone else
and who we are is not for sale

**Stand up - cuz there's nothing to hide
tonight's the night - we've never felt more alive - more alive
live it up - and enjoy the ride
tonight's the night - we've never felt more alive - more alive**

all the years that I wasted
wondering how I'm going to make it
when all that I had, was all that I'd need
and nothing more was a guarantee

Just had keep living
to be glad for what I'm given
and who wants to be, like everyone else
and who we are is not for sale

**Stand up - cuz there's nothing to hide
tonight's the night - we've never felt more alive, alive
live it up - and enjoy the ride
tonight's the night - we've never felt more alive, more alive**

Live like every breath I'm taking
Is the last one I get

Live like every step I'm making
Gets me closer to the end
Live like every thought I'm thinking
All the good times I had
And I've never felt more alive

Stand up - cuz there's nothing to hide
tonight's the night - we've never felt more alive, alive
live it up - and enjoy the ride
tonight's the night - we've never felt more alive, more alive

Don't Cry Forever

Written by Rob Beckley, Lester Estelle, Noah Henson, Eric Varnell, Michael "Kalel" Wittig

I'm going back, to where it all started
Watching our memories burn into flames
We slipped through the cracks, while time kept on ticking But now it's the past, and who cares
who's to blame
It's never too late...

Don't cry forever,
Cause it's not the end of the story, It's just the beginning And now more than ever,
We have the chance to begin again, And re-write our history

We can go back, and change this together
The moments have passed, but our scars still remain They'll always remain....

Don't cry forever,
Cause it's not the end of the story, It's just the beginning And now more than ever,
We have the chance to begin again, And re-write our history

Sometimes we'd say, things that would push us to break, But now we've changed, and we'll do
whatever it takes, This time

Don't cry forever, it's not the end of the story, it's just the beginning. And now more than
ever,
We have the chance to begin again, And re-write our history

Don't cry forever, (repeat) Don't cry forever it's just the beginning, It's now or never,
(repeat) It's now or never. , And re-write our history

I'm going back to where it all started, watching our memories burn into flames.

BONUS TRACKS

A Season

I'm praying that you figure it out right
Things are all gonna work out some how
Like a second hand working its way around
It always comes back

And I don't have a reason to lie to you
It never even crossed my mind to do
I just want to be there to help you through
See it to the end
To see you break through

**Its tearing up my heart
To watch you fall apart
This is just a season**

**Don't throw it all away
Just turn the other way
I'll give you just one reason**

You been waiting til you think the time is right
But there's something going on inside you mind
Knowing there's a moment you must decide
Will it be Life

There's a hope that breaks with the sunrise
And the day will come when you realize
There is more to this than just this life
Don't waste it crying
I want to see you break through

**Its tearing up my heart
To watch you fall apart
This is just a season**

**Don't throw it all away
Just turn the other way
I'll give you just one reason**

You gotta step up
You gotta throw down
You gotta rise up
And never back down

You gotta move in
You gotta roll out
You gotta dig in
And never sell out

**Its tearing up my heart
To watch you fall apart
This is just a season**

**Don't throw it all away
Just turn the other way
I'll give you just one reason**

FALL THE FOE

Hopeless, full of lies
Useless, loveless of life
Lying in wait, he's a deceiver
The deceiver
I can feel him closing in on me

**I will not fail
I will not fall
I know that I will have it all
You may bend me
But you never will break me**

Shameless, full of pride
Blameless, for giving me life
I will not wait you're a deceiver
A deceiver
I can hear the lies you're selling me

**I will not fail
I will not fall**

**I know that I will have it all
You may bend me
But you never will break me**
